

The upcoming budget debate for 2010 is going to be crucial for the survival and improvement of IHSS. The IHSS Coalition and its member organizations feel our advocacy efforts with legislators and the media will be much stronger if we can refer to specific situations and concerns. It is important to receive feedback from consumers and providers.

Please take a few moments to complete the form below. You may cut and paste if necessary, or submit additional pages, but permission signatures are required. We appreciate your participation.
